GOVERNMENT OF ORISSA

STATISTICAL ABSTRACT
OF
ORISSA

1963

Issued by
BUREAU OF STATISTICS AND ECONOMICS

INTRODUCTION

1. This volume of the Statistical Abstract of Orissa presents statistical information in abstract form relating to different phases of the Socio-Economic life of Orissa for a period of ten years, the latest year in most of the table being the year 1962-63 in case of financial year and 1963 in case of calendar year. Districtwise information wherever available, have been presented for the years 1961 to 1963. The scope and contents of this Volume have been revised in order to make it more useful to general public and to Government Departments.

2. Like its previous issue technical notes indicating the concept and definitions used in each of the Statistical tables have been given in this Volume at the beginning of the each section of this publication and statistical data relating to weights and measures in existing units and in metric units have been given side by side. The figures in metric units have been printed in *Italics* to distinguish them from those in existing units.

3. The Bureau acknowledges with gratitude, the Co-operation of all Government Departments and organisations who have made avalilable most of the statistical data presented here.

4. Departments of Governments and the interested public are requested to make their needs known to Bureau and forward comments and suggestions for improvement of this publication. Such suggestions are always welcome and will be carefully considered in planning future Volumes. Although it is a Government Publication, the State Government are in no way responsible for or committed to the views expressed in it.

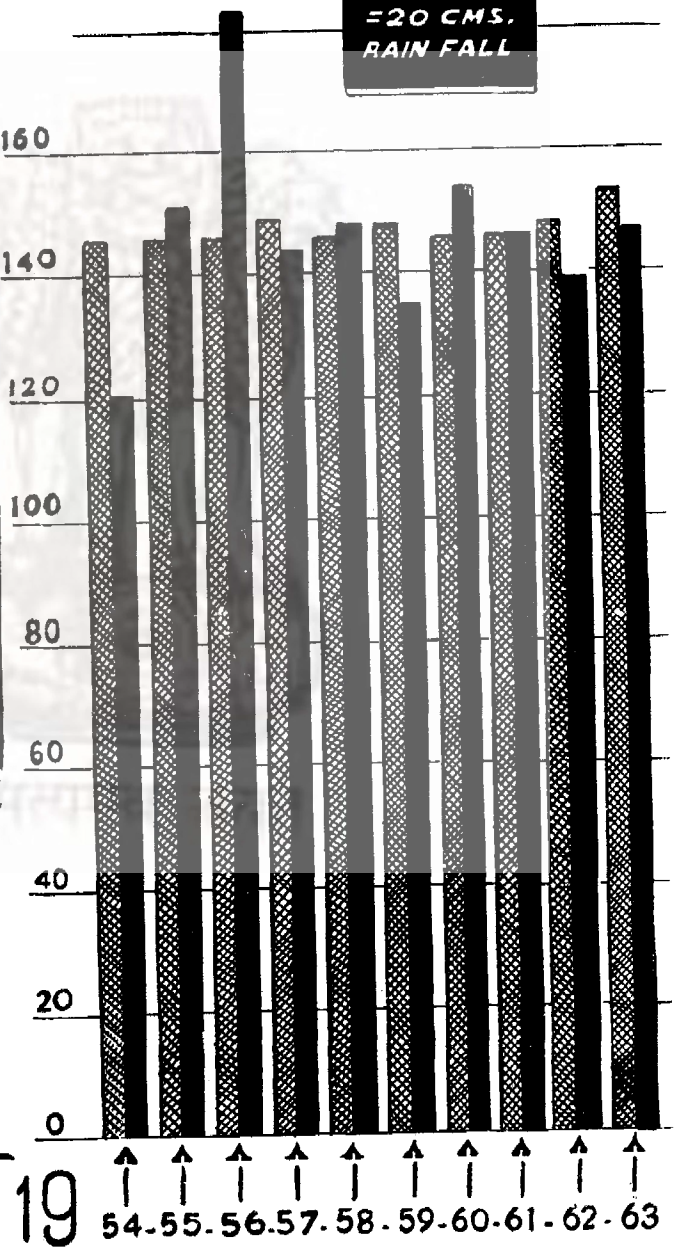

5. The following abbreviations and symbols have been used in most of the tables :—

"C.M." for Centimetres	"Kg." for Kilograms
"Sq." for Square	"Mt." for Metric tonnes
"Mds." for Maunds	"Km." for Kilometre
"Srs." for seers	"K.W.H." for Kilo Watt-hours
"Ch." for Chataks	"(—)" for Not available or Not reported
"Rs." for Rupees	"(..)" for Nil

Normal And Actual RAIN FALL IN THE STATE OF ORISSA

CONTENTS

TABLE NO.	SUBJECT	PAGE
	I. Climate	
1·1	Normal and Actual rainfall ..	1
1·2	Temperature and Humidity ..	3
	II. Area and population	
2·1	Area sexwise population, sex-ratio and density of population in different districts of Orissa ..	6
2·2	Towns, villages, rural-urban population and proportion of rural/urban population to 1,000 total population in different districts of Orissa ..	7
2·3	Area, houses and population in different Subdivisions of the State of Orissa ..	9
2·4	Cities and Towns in Orissa, 1961—Population, variation since 1951 and sex-ratio ..	21
2·5	Variation in population since 1901 in different districts of Orissa ..	24
2·6	Distribution of Scheduled Caste and Scheduled Tribe population in different districts of Orissa ..	26
2·7	Literate and educated persons in different districts of Orissa ..	27
	III. Vital Statistics	
3·1	Number of births and deaths, birth and death rates and infant mortality in different districts of Orissa ..	30
3·2	Deaths from chief diseases in the State of Orissa ..	40
3·3	Occurrence of deaths and ratio of mortality due to various diseases in the State of Orissa ..	46
3·4	Deaths by age-groups in the State of Orissa ..	56
3·5	Deaths due to Snake-bite and attack of wild animals ..	62
	IV. Medical and Public Health	
4·1	Number of Hospitals, Dispensaries, Beds available, patients treated and daily average attendance of patients in the State of Orissa ..	65

TABLE NO.	SUBJECT	PAGE
4·2	Income and Expenditure in Government and Public aided Hospitals and Dispensaries in the State of Orissa ..	71
4·3	Number of Primary Health Centres, Maternity and Child Welfare Centres and Maternity Centres functioning in the State of Orissa ..	75
4·4	Sickness of prisoners in District Jails ..	77
	V. Education	
5·01	Number of Educational Institutions in the State of Orissa ..	84
5·02	Classification of the Educational Institutions in the State of Orissa ..	88
5·03	Number of Scholars attending Educational Institutions in the State of Orissa ..	90
5·04	Number of teachers working in the Educational Institutions in the State of Orissa ..	96
5·05	Number of Colleges with strength of teachers and students in them and expenditure incurred for University Education in the State of Orissa during the year 1960-61, 1961-62, 1962-63. ..	102
5·06	Number of Schools (typewise) in the State of Orissa during the year 1960-61, 1961-62, 1962-63.	114
5·07	Number of Schools (typewise) in different districts of Orissa during the year 1960-61,1961-62, 1962-63.	117
5·08	Number of scholars on roll of Schools in the State of Orissa during the year 1960-61, 1961-62, 1962-63.	156
5 09	Number of scholars on roll of Schools in different districts of Orissa during the year 1960-61, 1961-62, 1962-63. ..	159
5 .0	Number of teachers working in Schools in the State of Orissa during the year 1960-61, 1961-62, 1962-63	198
5·11	Number of teachers working in Schools in different districts of Orissa during the year 1960-61, 1961-62, 1962-63. ..	201
5·12	Expenditure (Direct) incurred in Schools in the State of Orissa during the year 1960-61, 1961-62, 1962-1963. ..	240
5·13	Expenditure (Direct) incurred in Schools in different districts of Orissa during the year 1960-61, 1961-62, 1962-63. ..	243

TABLE NO.	SUBJECT	PAGE
5·14	Results of different Examinations in the State of Orissa ..	282
5·15	Number of Ashram Schools and Sevashrams with strength of students and teachers in them in the State of Orissa ..	285
5 16	Distribution of stipend and grant-in-aid in shape of reading and writing materials to Scheduled Caste and Scheduled Tribe students ..	289
	VI. Judicial and Administrative	
6·01	Number of Judicial Divisions, Judicial Districts and number of Officers exercising Appellate or Original Jurisdiction in the State of Orissa ..	292
6·02	Number of cases decided in the Courts of Orissa ..	294
6·03	Number and description of Civil Suits instituted in the State of Orissa ..	296
6·04	Number and value of Civil Suits instituted in the State of Orissa ..	298
6·05	General results of trial of Civil and Revenue cases in courts of Original Jurisdiction in the State of Orissa (Civil suits) ..	300
6·06	General results of trial of Civil and Revenue cases in the courts of Original Jurisdiction in the State of Orissa (Miscellaneous cases) ..	302
6·07	Civil Appellate Courts—Appeals from decrees in the State of Orissa ..	304
6·08	Civil Appellate Courts—Miscellaneous appeals in the State of Orissa ..	306
6·09	General results of trials of Criminal cases in the State of Orissa ..	308
6·10	General results of Appeals and Revisions in the State of Orissa ..	309
6·11	Nature of Offences reported and number of persons tried, convicted and acquitted in the State of Orissa	311
6·12	Punishment inflicted in Criminal cases in Orissa ..	346
6·13	Number and description of Registered documents and value of property transferred in the State of Orissa ..	348

TABLE NO.	SUBJECT	PAGE
6·14	Strength and cost of Village watch in the State of Orissa ..	352
6·15	Strength and cost of Police Force in the State of Orissa ..	356
6·16	Area and population served by police-stations ..	360
6·17	Crimes and Conviction in the State of Orissa ..	362
6·18	Cognizable Crime—Classes I to V including Abetment and Criminal conspiracy—Number of cases and persons concerned in the State of Orissa ..	366
6·19	Cognizable Crime—Class VI (other offences) including offences under Special and Local Laws and Criminal Tribes Act—Number of cases and persons concerned in the State of Orissa ..	376
6·20	Non-cognizable Crime—Classes I to V including abetment and criminal conspiracy—Number of cases and persons concerned in the State of Orissa..	384
6·21	Non-cognizable Crime—Class VI (other offences) including offences under Special and Local Laws—Number of cases and person concerned in the State of Orissa ..	392
6·22	Property stolen and recovered in the State of Orissa ..	401
6·23	Equipment, Discipline and Internal management of Police Force ..	404
6·24	Principal Police offences—Number of cases in the State of Orissa ..	415
6·25	Number and Distribution of Prisoners in the State of Orissa ..	419
6·26	Number of Convicts admitted into Jails and Subsidiary Jails by age and state of education in the State of Orissa ..	427
6·27	Number and disposal of convicts in the Jails and Subsidiary Jails in the State of Orissa ..	431
6·28	Nature and length of sentences of convicts admitted into the Jails and Subsidiary Jails in the State of Orissa ..	443
6·29	Offences committed by convicts and the punishments inflicted in the Jails and Subsidiary Jails in the State of Orissa ..	451

TABLE No.	SUBJECT	PAGE
6·30	Sickness and mortality among prisoners of the Jails and Subsidiary Jails in the State of Orissa ..	457
6·31	Number of Convicts admitted, who had been prviously convicted into the Jails and Subsidiary Jails in the State of Orissa ..	465
6·32	Expenditure incurred in guarding and maintaining Prisoners of the Jails and Subsidiary Jails exclusive of cost of building, repair, etc., in the State of Orissa ..	471
6·33	Conditions of Prisoners released from the Jails and Subsidiary Jails in the State of Orissa ..	475
6·34	Working of the mark system in the Jails and Subsidiary Jails in the State of Orissa ..	479

9·2	Number and coverage of Village Panchayats ..	529
	X. Currency and Coinage	
10·1	Currency in circulation in India ..	531
10·2	Spot prices of Bullion in Orissa ..	531
	XI. Wages and Prices	
11·01	Index No. of retail prices (unweighted) in the State of Orissa ..	533
11·02	Index number of wholesale prices (unweighted) in the State of Orissa ..	534
11·03	Prosperity Index of the farmers in the State of Orissa ..	535
11·04	Working class consumer price index numbers for Cuttack. ..	536
11·05	Working class consumers price index numbers for Berhampur ..	536
11·06	Comparative Statement of working class consumer price index numbers for various centres in India .	537
11·07	The average retail price of common rice in the State of Orissa ..	538
11·08	Cost of selected items of farm cultivation in the State of Orissa ..	540
11·09	Rural wages of different classes of labour in the State of Orissa ..	543
11·10	Harvest prices of certain important agricultural commodities ..	547
11·11	Retail prices of some important commodities ..	550
11·12	Whloesale prices of certain important commodities..	552
	XII. Bank	
12·1	Scheduled Banks operating in Orissa ..	557
12·2	Amount of loans advanced by different branches and sub-branches of the State Bank of India to individuals pledging to business concerns in the State of Orissa ..	558

TABLE No.	SUBJECT	PAGE
	XIII. Joint-Stock Company	
13·1	Position of Joint-Stock Companies in the State of Orissa ..	561
	XIV. Co-operation	
14·1	Number, Membership and Financial position of Co-operative Societies ..	563
14·2	Number, Membership and Financial position of Provincial Co-operative Institutions ..	567
14·3	Number, Membership and Financial position of Individual Society in the State of Orissa during the year 1959-60 ..	571
	XV. Agriculture	
15·1	Classification of Area in the State of Orissa ..	581
15·2	Area under different crops ..	595
15·3	Production of different crops ..	623
15·4	Average yield per acre of different crops ..	647
15·5	Area under cultivation and yield of coconuts in the State of Orissa ..	667
15·6	Area irrigated ..	669
	XVI. Forest	
16·1	Area of lands ..	672
16·2	Outturn of forest produce ..	672
16·3	Protection of Forests — Results of protection from fire and cattle ..	673
	XVII. Live-stock	
17·1	Number of Agricultural Implements in the State of Orissa ..	675
17.2	Number of Live-stock in the State of Orissa ..	677
17·3	Seizures and Deaths of cattle from various contagious diseases in the State of Orissa ..	683
17·4	Number of animals treated and castrated at the Veterinary Institutions ..	689

TABLE No.	SUBJECT	PAGE
	XVIII. Industry and Mining	
18·1	Salt production in the State of Orissa ..	693
18·2	Summary statistics of Manufacturing Industries in the State of Orissa ..	695
18·3	Number of Factories (Industrywise) in the State of Orissa ..	698
18·4	Manufacturing statistics of selected Industries in the State of Orissa ..	701
18·5	Output and value of Minerals in the State of Orissa	731
	XIX. Labour and Employment	
19·01	Distribution of workers and factories according to the number of working days in the State of Orissa ..	738
19·02	Number of working factories, workers employed and licence fee realised in the State of Orissa ..	739
19·03	Number of accidents in factories in the State of Orissa ..	739
19·04	Accidents in factories by selected Industries in the State of Orissa ..	740
19·06	Proceedings under Workmen's Compensation Act, 1923 before the Commissioners for Workmen's Compensation in the State of Orissa ..	742
19·07	Proceedings under Workmen's Compensation Act, 1923 before the Commissioners in different districts of Orissa ..	744
19·08	Cases of accidents in respect of which final compensation has been paid under Workmen's Compensation Act 1923 in different Industries in the State of Orissa	745
19·09	Accident in factories and Mines in different districts of Orissa and amount of compensation paid under Workmen's Compensation Act, 1923 ..	746
19·10	Working of the Payment of Wages Act, 1936 in the State of Orissa ..	747
19·11	Deduction from Wages in the State of Orissa ..	747
19·12	Average annual earnings per worker by Industry in the State of Orissa ..	748

21·09	Number of motor vehicles taxed in Orissa ..	768
21·10	Number of motor vehicles tax receipts and fees collected therefrom ..	769
21·11	Number of accidents due to conveyances ..	770
	XXII. Posts and Telegraphs	
22·1	Small Savings in the State of Orissa ..	773
22·2	Number of Post and Telegraph Offices working in the State of Orissa ..	773
22·3	Postal Traffic in Orissa ..	775
22·4	Postal Revenue in Orissa ..	776

TABLE NO.	SUBJECT	PAGE
	XXIII. Amusement	
23·1	Number of cinema-going population and total sale-proceeds realised from them in different districts of Orissa ..	778
23·2	Entertainment taxes collected in different districts of Orissa ..	780
23·3	Sitting capacity in different Cinema Houses with the value of the tickets and the amount of entertainment tax charged as on the 31st December 1961-63 ..	782
	XXIV. Export and Import	
24·1	Quantity, value and tollage of different Cargoes carried by island water transport in Orissa ..	810
24·2	Articles exported from and imported to Orissa by rail ..	812
	XXV. Community Development	
25·1	Provision and Expenditure of Second Five-Year Plan in the State of Orissa ..	833
25·2	Progress of physical achievements in Community Development and National Extension Service Blocks in different districts of the State of Orissa up to the 31st March 1959 ..	835
	XXVI. State Income	
26·1	Comparison of movement of net State Income at factor cost ..	856
26·2	Statement showing the sectorwise estimate of the State Income of the State of Orissa for the years 1953-54 to 1962-63 at current prices ..	859
26·3	Statement showing sectorwise estimates of the State Income of the State of Orissa for the years (1953-54 to 1962-63 at constant prices) ..	862
26·4	State Income of Orissa by Industrial Origin from 1953-54 to 1962-63 ..	865
	XXVII. Miscellaneous	
27·1	Incidence of fire attended by the Fire Brigades in the State of Orissa	869
27·2	Number of Printing Presses and Publications in the State of Orissa ..	871
27·3	Number of animals slaughtered and prices by variety of meat in selected Municipal markets ..	873
27·4	Quantity and price of Fish sold in Municipal markets ..	882

सत्यमेव जयते

I. CLIMATE

Data relating to temperature and humidity are recorded at eleven observatories of the Indian Meteorological Department which are spread over different districts of the State of Orissa. For the purpose of recording such Meteorological data, the State of Orissa is one of the meteorological divisions of the Meteorological Department, Government of India. The rainfall data are recorded at different rain recording stations maintained by the State Government. These rain recording stations are situated generally near the police-stations and the officers in charge of police-stations have been given responsibility for maintaining such records.

Table No. 1·1 shows the normal and actual rainfall for the State from 1954 to 1963 and in respect of each district for the year 1961 to 1963. The State figures represent the district average and such figures relate to all reorganised districts after merger of the ex-States. This table also shows the variation of actual rainfall from normal rainfall.

The actual rainfall is recorded at 8-30 hours of Indian standard time each day throughout the State and the amounts measured give the rainfall of previous 24 hours. The rainfall data are tabulated in the office of the Director of Agriculture and Food Production, Orissa, who controls the registration of rainfall and are published in the State Gazette. The period used for working out the normal rainfall of any rain recording sation varies from 5 to 10 years.

Table No. 1·2 shows the maximum, minimum and mean temperature and mean humidity for the State from 1954 to 1963 and relating to different observatories for 1963. The State figures represent the average of the data of different observatories and relate to entire State of Orissa. Temperature readings are taken at most of the observatories twice a day at 8-30 and 17-30 hours I. S. T. mean temperature is the average of the maximum and minimum temperature recorded. The humidity data represent the percentage of vapour present in the atmosphere and thus shows the dampness of air.

II. AREA AND POPULATION

The distribution of area, population ; villages, towns literary and other characterstics of Orissa amoung the districts and sub divisions presented in this section is based on the results of the population Census, 1961.

Table 2·1 gives the area in square miles and square kms. for the various district of the State. The total population classified by sex and the sex ratio obtaining in the different districts are also given from columns 4 to 7. The last column deals with the density of population per square mile.

In table 2·2 the rural and urban picture of the State as revealed by the number of towns and villages and the population inhabiting therein with a classification according to sex is given.

THE DEFINITION OF THE TOWN IS AS ADOPTED IN THE 1961 CENSUS

Table 2·3 deals with the area population of the State in its various districts and sub divisions. It also gives a classified picture according to the rural-urban division. Column 17 to 25 relate to the number of houses, households and population density.

In section 2·4 the cities and towns of the State are shown against the districts in which they lie along with the population each town classified according to sex. Column 7 gives the variation of urban population since 1951. The sex-ratio as defind by the number of females per two males is given in Column 8 for each town city.

Section 2·5 deals with the population in each district from 1901 onwards and its percentage of variation during each ten year interval.

The Scheduled Castes and Scheduled Tribes population classified in each district of the State is given in section 2·6. Literate and educated persons in the rural and urban area of the districts is given in section 2·7 Columns 11, 12 and 13 are measures of percentage of literate in the total population in the Sexes taken separately.

Available all India figures, wherever given, have been taken from the Union Statistica[1] Abstract.

III. VITAL STATISTICS

Information regarding births, deaths, birth-rates and death-rates in the State of Orissa are shown in this section. Such data relate to both the rural and urban areas of the entire State excluding the interior Agency tracts of Ganjam and Koraput districts. The information are collected through the Union Board Staff and Village Headmen in South Orissa and through the chowkidars in North Orissa and tabulated in the office of the Director of Health Services, Orissa. The State figures from 1954 to 1963 and district-wise figures for the last three year are shown in the tables under this section.

Table No. 3·1 shows the actual number of births and deaths in rural and urban areas as well as according to sex. From the data in column 7, it is seen that the births of male children are larger in number than the female children and the number of births in column 2 is always in excess over the number of deaths in column 8 for the State. The ratio of births and deaths are the annual rates per thousand of Mid-year population. The infant mortality rates are expressed as the number of deaths amongst infants under one year of age per thousand live-births recorded during the period.

Figures in Table No. 3·2 represent the deaths from Chief diseases in rural and urban areas whereas the figures in Table No. 3·3 represent the deaths as well as the death-rates by sex. In the latter table death ratios are the rates per thousand of Mid-year population.

Table No. 3·4 shows the deaths according to age-groups and by sex. The figures for each age range represent the number of persons who die when their ages are within the lower and upper limits of this range. The lower limit is always included in the range while the upper one is excluded. Death at ' O ' age means born dead. The Table No. 3·5 shows the number of deaths of human beings occurring due to snake-bites and attacks of wild animals as reported by the District Magistrates.

IV. MEDICAL AND PUBLIC HEALTH

Medical and Public Health Statistics which are shown in this section represent the data relating to the number of hospitals and dispensaries, number of beds available, number of patients treated, number of personnel in Medical and Public Health Services and expenditure incurred in various hospitals and dispensaries in the State of Orissa. Such informations are collected and tabulated in the office of the Director of Health Services, Orissa.

In Table 4·1 the number of hospitals and dispensaries run by the State Government (State public, State special, Local Fund and Private aided) together with the number of beds available, and the patients treated indoor and out-door, is shown. The non-aided, railway and subsidised hospitals and dispensaries are also shown in this table. State figures from 1954 to 1963 and district-wise distribution of such data for 1961 to 1963 have been presented.

The Table 4·2 shows the receipts from various sources available for and actual expenditure incurred in various hospital and dispensaries in the State of Orissa. State figures from 1954 to 1963 and district-wise distribution of receipts and expenditure for 1961 to 1963 have been presented here. In Table No. 4·3 the number of Primary Health Centres, number of Maternity Centres and number of Maternity and Child Welfare Centres are shown from 1954 to 1963 along with the district-wise break down for 1961 to 1963. Table No. 4·4 shows the data regarding the number of daily average strength and daily average sickness of prisoners in thirteen district Jails of Orissa along with the number of prisoners who are attacked by various diseases and admitted to hospitals for treatment and the number of such patients who died of various diseases. For the year 1961 to 1963 such data in respect of each district Jail are shown in this Table.

V. EDUCATION

This section is meant for presenting the educational statistics of the State of Orissa. The information regarding College and School education from 1953-54 to 1962-63 for the State of Orissa and for 1960-61 to 1962-63 in respect of each district are shown in the tables under this section. Number of all types of educational institutions in existence, number of scholars on roll, number of teachers working and expenditure incurred for education are the main types of information on this subject. Such data are collected and tabulated in the office of the Director of the Public Instructions, Orissa. The information presented in the tables of this section are compiled from that office by the Bureau of Statistic and Economics.

In the table No. 5·01 number of all types of Colleges and Schools existing in the State both recognised and unrecognised are shown. This table gives a general idea as to the educational development in the State since 1953-54. Colleges and Schools for boys or girls do not mean that they are exclusively for boys or girls All-India figure given under this table has been taken from the Statistical Abstract, Government of India. As the co-education is in vouge, girls are studying in the educational institutions meant for boys and boys are also studying in some educational institutions meant for girls. In order to give an idea of the comparative growth of education among boys and girls, total number of boys and girls scholars in all educational institutions are shown in the table No. 5·03. The table No. 5·02 gives the broad classifications and the educational institutions which come under each class are shown in it. The table No. 5·04 shows the number of teachers by sex working in different educational institutions of the State. Table No. 5·05 shows the information regarding number of Colleges,along with number of teachers working, number of students on roll and amount of expenditure incurred for College education in different districts of Orissa during the year 1960-61 to 192-63 whereas such data for school education are presented in table Nos. 5·06 to 5·13. In all these tables distribution of data by sex as well as by managements, Government and Private for each type of educational institution is also shown.

The expenditure shown in the table Nos 5·12 and 5·13 are the direct expenditure which mean expenditure directly connected with the maintenance of an institution, viz., salary of teachers and other recurring expenditure. In all these tables from table Nos. 5·01 to 5·11 information relating to recongnised and unrecognised institutions are shown separately. The recognised institutions are those which are recognised by the Government and offer the prescribed courses of study. They are open to inspection and general direction by the Education Department of Government and their pupils are ordinarily eligible for admission to public examinations and tests held by the Department or University.

Table No. 5·14 shows the number of literates and percentage of literacy by livelihood classes in the State.

Table No 5·15 shows the trend of results of various examinations conducted by the Utkal University and Board of Secondary Education, Orissa from the years 1953-54 to 1962-63 for the State of Orissa.

The Ashram Schools shown in the table No. 5·16 are the residential schools for the tribal students to educate them in crafts like Agriculture, Spinning, Weaving, Carpentry, Bee-keeping etc., and the Sevashrams are day schools of L.P. standard in which admission is open to students belonging to scheduled tribes, scheduled castes and other backward classes. The data in this table present the total number of Ashram Schools and Sevashrams together with the total number of teachers working in such institutions and the total number of students on roll. Distribution of such data by sex is also shown in this table. Information given in the table No. 5·17 shows the amount of stipends and grants offered by the State Government for the study of the scheduled caste and scheduled tribes students. So these two tables give an idea as to the progress of educational facilities given to scheduled castes, scheduled tirbes and other backward classes of the State.

VI. JUDICIAL AND ADMINISTRATIVE

This section presents the information relating to the administration of Civil and Criminal Justice, Registration, Police and Prisons. The data shown in the tables of this section are self-explanatory and have been compiled from the returns furnished by the concerned offices of the State Government. The State figures from 1952 to 1961 with districtwise break down for 1961, have been shown in these tables.

Table Nos. 6·01 to 6·12 show information relating to the Judicial staff who are at the helm of administration of Civil and Criminal Justice, number of Civil and Criminal cases instituted and disposed of, number of offences reported and persons tried, convicted and acquitted in the Courts of Orissa. Such data are tabulated in the office of the Registrar, High Court, after these are collected from all Courts under the jurisdiction of the High Court, Orissa. For the year 1961, information regarding Criminal Justice for each of the 14 Judicial districts and those regarding Civil Justice for each of the 8 Judgeships have been shown separately.

Table No. 6·13 represents the data relating to registration of documents. These data are collected by the office of the Board of Revenue from different registration offices working in the State through the District Collectors. The total number of registration in column 8 of this table includes the number of other types of documents registered other than movable and immovable property. The annual figures for the State from 1954—1963 and districtwise figures for 1961 to 1963 have been shown in this table.

Table Nos. 6·14 to 6·24—Information under various categories relating to strength and cost of police force in the State of Orissa and number of different types of police cases and number of persons involved have been shown in these tables. These data are collected and tabulated in the office of the Inspector-General of Police, Orissa.

Table Nos. 6·25 to 6·34—Data represent the various types of information relatring to the convicts and prisoners of all Jails and Subsidiary Jail in the State of Orissa. Such info mation are collected and tabulated in the office of the Inspector-General of Prisons, Orissa. Districtwise inf rmation for the year 1961 to 1 63, have been compiled by the Staff of the Bureau from the records maintained in the office of the Inspector-General of Prisons.

VI. JUDICIAL AND ADMINISTRATIVE

VII. STATE FINANCE

This section has been set apart for presenting the information relating to expenditure and revenue of the Government of Orissa. It begins with the Table No. 7·1 showing the revenue and expenditure on revenue account and the surplus or deficit, opening and closing balances which is followed by four tables showing the receipts and expenditure of the State Government under different Budget heads. In these tables, figures represent the actual net receipts and net expenditure from the financial years 1954-55 to 1962-63. Like the preceding section, districtwise data for the last year are not shown as the same are not available. These figures have been compiled from the Civil Budgets published by the Finance Department, Government of Orissa.

Table No. 7·6—Data represent the consumption of Ganja, Bhang, Opium and Country spirts and revenue derived from their sale in the State of Orissa from 1953-54 to 1962-63 with districtwise break down of such data for the last shree years. These data have been compiled from the returns submitted by the Board of Revenue, Orissa.

Table No. 7·7—This contains the information regarding the sales of motor spirit and amount of taxes realised on such sales in different depots of Rural and Urban Area, for the State of Orissa from 1953-54 to 1962-63 and in respect of each district for the last three years. Such data are compiled from the returns submitted by the Superintendent of Excise of different districts.

Table No. 7·8—Shows the amount of taxes collected under Orissa Sales Tax Act, Orissa Agricultural Income-tax Act and Central Sales Tax Act. The number of registere d dealers stand at the end of each year who are liable to pay Sales Tax and number of persons who are assessed to pay Agricultural Income-tax have also been shown. State figures from 1953-54 to 1962-63 and districtwise figures for the last three years have been shown in the table. Such figures have been collected from the office of the Commissioner of the Commercial Taxes, Orissa. The Table No. 7·9 represent the amount of revenue derived from the sale of different types of Forest produces as collected from the office of Conservators of Forests.

VIII. INCOME-TAX

The statistics contained in this section relate to assessments completed by the Income Tax Department, Government of India from the year 1954-55 to 1960-61 in the State of Orissa. The figures of taxes given in the tables of this section represent the demand raised on assessement and not the collection actually made against those demands. These figures are compiled from the reports published by the Board of Revenue, Central Government.

Table No. 8·1—This table gives an analysis of the tax payable according to the range of total income and class of assessees for the year 1960-61 and is designed to show the total tax (including surcharge) payable by the assessees as well as the net income left in their hands after payment of the tax. Income from capital gains and tax payable thereon are, however, not included in this analysis. The classification according to range is based on total income before deduction of tax. The assessees in the range below Rs. 3,000 in respect of class of assessees other than companies and other concerns assessable at company rate are generally non-residents liable to tax on the basis of their total world income. Total State figures without any range in respect of each class of assessees from 1954-55 to 1960-61 are also given in this table.

Table No. 8·2—This table gives a classification of the assessees according to the range of the net income left in their hands after deduction of tax payable by them from their total income for the year 1960-61 with abstract figures for some earlier years.

Table No. 8·3—The income from business and professions and tax thereon are classified in this table according to the different kinds of trades and professions for the year 1960-61 and for earlier years only total figures of all kinds of trade and professions are given. The classification closely follows the 1951 Indian Census Economic classifications and the Census of Manufacturing Industries.

X. CURRENCY AND COINAGE

This section presents the data relating to money circulation in India and price of gold and silver in the State of Orissa. The former informations are collected from the monthly Bulletin published by the Reserve Bank of India and the latter compiled from the weekly returns submitted by the Chamber of Commerce, Berhampur.

Table No. 10·1—Figures for notes and rupee coin shown are for the last Fridays of the period stated. Figures are net of adjustment made on account of transfer of liabilities to the State Bank of Pakistan in respect of inscribed Pakistan Notes issued between April and July 1948, cancellation of India Notes returned from circulation in Pakistan under Section 4 (2) of Part IV of the Pakistan (Monetary and Reserve Bank) Order 1947, as amended, and India Notes returned from circulation in Aden during the period from October 1951 to 1952.

Notes in circulation comprise all notes issued by the Reserve Bank of India other than those held in the Banking Department and include notes held by Government Treasuries and Commercial Banks in addition to those in circulation among the public. Notes held in the Banking Department form part of the assets of the Banking Department.

Rupee coins include one rupee notes issued since July 1940 under the Currency Ordinance, 1940. The issue Department of the Reserve Bank of India holds rupee coins as assets against notes issued to afford facilities to the public to convert notes into coin.

Table No. 10·2—The prices of gold and silver are compiled from the weekly returns. The annual figures are the averages of the monthly figures which are the average of the weekly quotations.

XI. WAGES AND PRICES

Statistics relating to the retail price index, wholesale price index, parity index of the farmers, working class consumer price index in Cuttack and Berhampur, as well as in some other centres in India, average retail price of common rice, cost of selected items of farm cultivation and rural wages of different classes of labour, the farm harvest prices, the wholesale prices and retail prices of different commodities, in the State of Orissa are presented in this section. The annual data for the period stated are the averages for the monthly figures

Wholesale and retail price index (Table Nos.11·01 and 11·02)—Data represent the price relatives of different commodities constructed by the Bureau of Statistics and Economics on the basis of the available price for different markets in the State of Orissa for the period stated taking the price of the month of August 1939 as 100. Previously, the price data were collected and published fortnightly in *Orissa Gazette* by the Office of the Director of Agriculture and Food Production, Orissa. Now the price data are being collected by the Directorate of the Marketing and are published in separate Bulletins. From the 1st January 1961 Supply Department is in charge of collection of prices.

Parity Index of the farmers—The Table No. 11·03 represents the ratio between the index number of the prices paid and the index number of the prices received by the farmers. The index number of the prices paid by the farmers is a composite index of two groups, viz., domestic expenditure and farm cultivation cost. The group index is the weighted geometric average of the price relatives of the component commodities of the group, weights being the average expenditure on these commodities by a cultivator. Similarly the composite index is computed utilising the average expenditure on each group as weight. The index number of the prices recieved by the farmer is the weighted geometric mean of the price relatives of the component commodities, the weight being generally proportional to the percentages of the quantities of those commodities available for marketing during the base period.

Working class consumer price index (Table Nos.11·04 to 11·06). The figures for various centres in India relate only to working class families, the heads of which are in fulltime and regular employment. They represent the changes in the cost of a given schedule of goods and services consumed by an average working class household in each centre as determined by periodical field enquires. The items on the list of articles are grouped under five heads, viz.,—food, fuel and lighting, clothing and beddings, etc., houserent and miscellaneous. Separate indices are worked out for the individual groups. The index for any group is the weighted arithmetic average of the price relatives of the several items of the group, the weight being proportionate to the expenditure of an average working class family on those items. The composite index or the index for all groups is the weighted arithmetic average of the group indices, weights being the proportionate to the expenditure on those groups by an average working class family. Rent figures in all cases are obtained from enquiries held at long intervals. No account is taken of the seasonality in prices of commodities and services included. The data are collected from the Indian Labour Journal published by Labour Bureau, Government of India.

Table No. 11·07—This table shows the average retail price of common rice which is given in seers per rupee collected from the Office of the Directorate of Marketing Orissa.Data relating to the years 1918 to 1963 are shown in this table.

Table Nos.11·08 and 11·09—Data represent the cost of the selected items of the farm cultivation asestated in the concerned table and wages and working hours of the different class of labour in the rural areas of the State of Orissa. The State figures from 1955 to 1963 with districtwise breakdown for the last three years are shown in these tables. The data are compiled from the returns submitted by the Agricultural Overseers and Sub-Overseers relating to various centres selected in the rural area to the Bureau of Statistics and Economics, Orissa.

Table Nos. 11·10 to 11·12—The farm harvest prices, retail and wholesale prices of various agricultural and commercial commodities, have been presented in these tables. The data relating to table No.11·10 to 11·12 is collected and tabulated in the Office of the Director of Agriculture and Food Production , Orissa and Director of Marketing, Orissa respectively.

XII-BANK

This section represents the data relating to business of different Scheduled Banks operating in the State of Orissa. The figures are for the last Fridays of the period stated or for the previous working days if Fridays are holidays, and are compiled for the monthly returns submitted by different Scheduled Banks in respect of thier branches operating in the State of Orissa. The Banks included in the second schedule to the Reserve Bank of India Act, are termed as Scheduled Banks which are obliged to maintain with the Reserve Bank of India a minimum balance amounting to 5 per cent of their demand liabilities and 2 per cent of their time liabilities and they enjoy certain facilities from the Reserve Bank.

Demand liabilities—All liabilities which are payable on demand. Demand deposits, outstanding telegraphic and mail transfers, demand drafts, bills payable, unpaid dividend warrants and borrowing from Banks (other than Reserve Bank and State Bank) are payable on demand.

Time liabilities—These include fixed deposits, time borrowing from Banks and other outside liabilities not payable on demand.

Cash—Comprises current notes and coins maintained as till money currencies of the foreign countries are excluded.

Balance with the Reserve Bank of India—The clause 45 (*a*) of the Reserve Bank of India Amending Act, 1956 enables the Reserve Bank of India to vary the required reserve of the Scheduled Banks between 5 and 20 per cent of the demand liabilities and between 2 and 8 per cent of the time liabilities.

Advance—Includes loans, over-drafts, cash credits, foreign import bills, negotiated under letters of credit realisable and enforceable in the State and money lent to other Banks.

Bills discounted—Covers bills drawn and payable in the State including demand drafts purchased. Export bills are not included.

XIII. JOINT-STOCK COMPANY

The tables, attached to this section deals with the Joint-Stock companies, registered and liquidated in the state of Orissa with its authorised, subscribed and paid up capital from the year 1959-60 to 1962-63. The figures have been collected from the monthly publication 'Blue Book' published by the Department of Company Law Administration, Ministry of Commerce and Industry. The liability of the shareholders of these companies is limited to the extent of the amount of their shares. Companies registered outside the state but carrying on business inside this state are not included here.

A district division of public and private companies with its authorised, subscribed and paid up capital separately, has been made in order to facilitate the reader in comparing the growth of two categories of company. The public companies are considerably less than those of private ones. The percentage of liquidation of public companies is observed to be much more than the private companies which clearly manifests the lack of incentive and care in the shareholders of the public companies.

XIII. JOINT STOCK COMPANY

XIV. CO-OPERATION

This section presents the statistics in abstract form relating to the working of the co-operative movement in the State of Orissa. Such statistics are compiled from the annual report of the co-operative Department, Orissa. The State figures from 1953-54 to 1962-63 are presented in the tables of this section and the annual data pertain to the year ended 30th June.

Table No. 14·1—Statistics for Central Co-operative Banks, Agricultural and Non- Agricultural Societies are shown separately in this table. Statistics for all types of Societies in this table represent the sum total of the data relating to these three types of societies. Agricultural Societies represent all agricultural credit and agricultural non-credit Societies. Non-agricultural Societies include non-agricultural credit and non-agricultural non-credit Societies and insurance Societies.

Table No. 14·2—Orissa State Co-operative Bank, Orissa State Co-operative Housing Corporation, Orissa State Co-operative Societies, Central Non-Credit Co-operative Societies, Orissa Provincial Co-operative Land Mortgage Bank, State Co-operative Union Bank and State Handloom Weavers' Co-operative Societies come under the Provincial Co-operative Institutions and data relating to each of such societies are presented in this table. Statistics for all types represent the sum total of the data relating to the societies stated in this table, "Working capital" of the column 7 and column 8 in the table Nos. 14·1 and 14·2 respectively is the total of the three columns preceding it.

Table No. 14·3—Statistics relating to each individual Society of all types are presented in this table for the year 1960-61 1962-63. "Share Capital" denotes the paidup amount. "Deposits" represent the deposits by members, Co-operative Institutions, Primary Societies, Individuals and other sources. "Loans from other Societies and Bank" include Government loans and loans from Reserve Bank of India. "Reserve" represents reserve and other funds. "Working Capital" in column 9 of this table is the total of columns 4, 6, 7 and 8.

XIV. CO-OPERATION

XV. AGRICULTURE

Available statistics regarding Agriculture in the State of Orissa are presented in this section, State figures from 1953-54 to 1962-63 with districtwise distribution for the last 3 years are shown in the tables of the section. The data are in respect of the Crop-year which starts from July and ends in June. Such statistics are collected from the office of the Director of Agriculture and Food Production, Orissa, who in turn depends upon the village Karanams in the district of Ganjam, village Potwaries in the district of Sambalpur, Chaklakanungoes/Revenue Supervisors in the districts of Balasore, Puri and Cuttack, Taluk Officers in the district of Koraput and Deputy Collectors in the newly formed districts for the primary returns (Printed booklets containing all the statements).

Table No. 15·1—Data relates to the lands which are put into various uses from year to year. The total area of the State is given according to village paper. The total area according to the Surveyor-General of India has also been given. Area under forest as shown in this table does not agree with that of the Forest Department, because certain villages and other lands though not covered by forests, are taken as forest by the Forest Department, while these data are not treated as forest for the purpose of Agricultural Statistics.

Area not available for cultivation—The land which is absolutely barren or uncultivable or covered by buildings, water or roads or otherwise appropriated for non-agricultural purposes comes under this classification.

Other uncultivated land excluding fallow land—This denotes land for cultivation, but not used as such and includes culturable wastes, 'permanent pasture and other grazing lands and lands under miscellaneous tree crops.

Fallow land—It denotes cultivable areas which after abandonment remain uncultivated over a long period. Net area sown—In computing the aggregate net area sown the areas sown more than once are counted only once. Total cropped area—For calculating total cropped area, of different crops are raised on a given land, the same area is counted for each crop. In this table in respect of some districts, figures of previous years have been repeated.

Table Nos. 15·2, and 15·4—Figures are given for areas and production of principal crops and average yield per acre . These are taken from the forecasts issued by the Director of Agriculture and Food Production, Orissa regarding these crops. In respect of each crop, generally three estimate are issued at different dates of the year and these are based on "Condition factors" or 'anna estimates' of crops reported by the primary agencies. The first estimate provides at an early date, information regarding the annas shown, the second estimate issued generally about a couple of months later includes the areas of the late sowing and also gives information regarding the condition of the crop. The third or the final estimate represents the total areas sown and yield harvested or expected to be harvested. The successive estimates, thus, give a progressive picture, of the areas and yields. The final estimate of a year is revised again at the time of release of the final estimate of the subsequent year. The data presented in these tables are such revised estimates for the period stated.

Table No. 15·5—This table represents the areas in acres and yields of coconut in thousand nuts. Annual figures with districtwise break-up have been given from 1954-55 till 1962-63.

Table No. 15·6—Relates to area under irrigation by sources of irrigation—As complete information in respect of all the districts could not be available in the Directorate of Agriculture, figures in respect of a few districts have been given as provisional by taking the previous year's figures .

XVI. FORESTS

Statistics concerning forests are shown in this section. Table No. 16·1 deals with the area of the forest lands of the State of Orissa. Area under forest are classified according to legal status such as 'Reserved' and 'Protected'. Reserved forest is one which is permanently dedicated either to the production of timber or other forest produce and in which right of grazing and cultivation is seldom allowed. In protected forests these rights are allowed, subject to a few miles restrictoins. State figures from 1952-53 to 1961-62 are shown in this table.

Table No. 16·2—Data given in this table represent the outturn of forest produces in the State of Orissa from the year 1952-53 to 1961-62. The figures in respect of outturn of timber, bambcos, fuel and revenue realised from the auction sale of minor forest produces with total revenue of the Forest Department are given in this table.

Table No. 16·3—Information given in this table relate to total area under Forest Department, area of forest lands protected from fire and cattle with their respective proportion to total area of forest lands in the State, area opened for grazing and number of animals grazed on such lands. Only the State figures from 1952-53 to 1961-62 are presented in this table.

XVI. FOREST

16·1. Area of lands

Period	Forest area						Proportion of the forests to the total area of the State

* 7,000 sq. miles which were under the Revenue Deptt. as ex-za mindari forest have been included.

XVII. LIVE-STOCK

This section presents the statistics regarding live-stock, poultry, agricultural implements, seizures and deaths of cattle from various contagious diseases and diseased cattle treated in the veterinary hospitals and dispensaries. Data regarding live-stock, poultry, and agricultural implements are collected through a census conducted quinquennially. In the rural areas, the primary data are collected through village revenue agencies or through other local staff where such agencies are not in existence. In the urban areas, the staff of the Municipalities and Notified Area Councils collect such information. The data are collected and tabulated by the office of Director of Animal Husbandry and Veterinary Services, Orissa. Before the independence of this country, the last census was conducted in 1945 in all States and after independence, the first census was conducted in 1951 throughout India, except in Orissa where the live-stock census could not be conducted due to some administrative and other difficulties. Even the second All-India live-stock census conducted in 1956 could not be extended to the State of Orissa due to the same reasons and it was only conducted in 1957 and 1961. The data as obtained through the live-stock census conducted in 1945, 1957 and 1961 are shown in abstract form in the table Nos. 17·1, to 17·2 in respect of each district of the State of Orissa. The figures for 1945 are adjusted to the new districts formed after integration of the ex-States with Orissa.

Table No. 17·3—Number of cattle attacked and died of various contagious diseases are given in this table for the year 1953-54 to 1962-63 in respect of the State of Orissa.

Table No. 17·4—Data represent the number of Veterinary Hospitals and Dispensaries in existence, number of Veterinary Surgeons working, number of cattle treated and inoculated and number of castration and artificial insemination done in the State of Orissa from the year 1953-54 to 1962-63. The Statistics of the above two tables are collected by the office of the Director of Animal Husbandry and Veterinary Services, Orissa, through the Veterinary staff.

Salt Table No. 18·1

These tables present an idea about the number and name of the factories in existence and reporting, area under production, actual production, consumption and cess realised by the Government from the year 1954 to 1963. The figures have been collected from the office of the Superintendent, Salt, Humma. The annual statement regarding the area and production of Salt does not putforth any correlation between the two in case of some years, as the decrease or increase in the production mainly depends on four factors as 1. Weather condition 2. Brine supply 3. Alignment on scientific basis 4. Initiative taken by the manufacturers. The excess of consumption in 1959, 1960 and 1963 than the production is possible due to the huge stock of Salt left unconsumed in the previous years. The Goka and Astarang Factories are non-cess paying salt factories.

The table No. 18·2 shows the Summary Statistics of Manufacturing Industries in the State of Orissa from 1954 to 1962. These data from 1954 to 1959 were collected through the Annual Census of Manufactturing Industries conducted under the provisions of the Industrial statistics Act 1942 and Census Manufacturing Industries rules 1945 made there under. The Census was confined to only 29 types of industries out of 63 heads.

The Industrial Statistics Act 1942 was repeated with effect from 10th November 1956 by a more comprehensive collection of Statistical Act viz. " the collection of Statistics Act 1953. The Collection of Statistics (Central) Rules 1959 under the 1953 Act were notified early in January 1960, providing for a comprehensive Annual Survey of Industries (A. S. I.) as from 1959. The Directorate of Bureau of Statistics and Economics, Orissa undertook the Annual Survey of Industries in collaboration with National Sample Survey (I. S.) from the year 1960 on words.

The factories registerd under the Indian Factories Act 1948 which employ 20 or more workers on any day with or without power have been taken into account upto the year 1959. From 1960 on wards the coverage extends over all the factories registered. For building up estimates for the state, returns collected both by N. S. S. and the State Bureau are taken into account.

The response from factories is indicated in the table No. 18·3 for each industry. Detailed information (industry wise) for the years 1960, 61, 62 have been given in the table 18·4.

Notes on terms used in the tables

1. Average No. of days worked. This computed by adding the No. days worked by the factories in the industry and dividing the aggregate by the number of factories where manufacturing operations were carried on.

Producton capital employed—Capital employed relaties to 31st December in the case of factories which closed their accounts on that date and in other cases to the date on which accounts were last closed prior to 31st December. It consists of fixed and working capital. Fixed capital consists of land, building including those under constructions, improvement to land and other constructions, plant and machinery and tools, transport equipments, other fixed assets such as furniture and fixture, etc. Working Capital consists of stocks of materials, stones, fuels, semifireshed goods including work in progress, fiashed products and by products, cash in hand and at the bank, and the algabraic sum of Sunday crediters, and debtors, whose transaction relate to one year only. Long term loans and advances of propricters and working partness are excluded.

(*iii*) Rent paid for fixed capital items taken on lease or rent.

It is the amount paid for the use during the year of any items of fixed assets taken on lease or rent.

(*iv*) Number of pensons employed—The average number of persons employed by each factory under various heads such as workers, other then workers etc., is computed by taking the total attendance during the year of persoes in all the shifts on all working days and dividing it by the number of days worked. These averages are aggregated for all factories in the industry aend the aggregate is taken as the number of persons employed in the industry. It includes prsons on leave with pay such as sick leave, casual leave or paid vacation and also those engaged in welfare activities.

(*v*) Workers—The term workers is used in the same sense as in the Factories Act 1948 but excludes persons holding position of supervision or management or employed in a confidential position.

(*vi*) Other than Workers—This term includes all emplyees other than workers as defiued in above.

(*vii*) Man hours—The number of man hours for an industry is the total of the number of man hours worked by all factories in that industry.

(*viii*) Salaries and Wages—It includes all payments made in cash as compensation for work done during the year.

(*ix*) Money value of benfits—this includes the net cost of the concession in respect of supplies made or services rendened such as housing food grains, medical, educational transport facilities etc.. payments by way of employees contribution to provident fund, employees state insurance and pay off benefits, gratuity etc.

(*x*) Materials and fuels consumed—The valuc of materials and fuels consumed in the cost of the items at the factory. It includes the purchase price transport charges and other incidental costs. Materials consumed for repairsand maintenances are included. This excludes any fuel or materials manufactured in the factory and consumed in it.

(*xi*) Work done by Other Concerns—It devotes the cost of services rendered to the factory by other concerns and induviduals other than the employees of the factory.

(*xii*) Industrial Services purchased—It includes the amount paid on account of

(*i*) Inward transport charges

(*ii*) Purchase agency services

(*iii*) Taxes and duties on purchase

(*iv*) Postage and stationary printing etc.

(*xiii*) Non industrial services purchased—It includes amount paid on

(*i*) Audit fee, accounts and Bank charges

(*ii*) Local rate and factory licence and any other expenses incurred inconnection with manufacturing activities.

(*xiv*) Input—It is the gross value of marerials and fuels etc., consumed, work done by other concerns products reposted for sale last year but used for further manufacture, value of industrial and non-industrial services purchased and depriciation.

(*xv*) Value of products and by products—It reprssents the value of products and by products manufactured for sale during the year. The value is ex-factory that is exclusive of any incidental expenditure on sales.

(*xvi*) Work done for Customers—It comprises the work done by the factory for other concerns on repair and maintenances as also manufacturing work done on materials supplied by the later.

(*xvii*) Output—It is the agregate value of products and by-products manufactured for sale, work done for customers and value of the difference in stocks of semi-finished goods at the begining and at the end of the survey year.

(*xviii*) Value added by manufacture—This represents that part of the value of the products which is created in the factory and is computed by the deducting from the gross, ex-factory value of output the gross value of input.

Table No. 18·5

These tables unfold the basic information about the underground treasure of Orissa the state which has been blessed with verious minerals, colossal and extensive in nature. Figures from the year 1954 to 1963 with distictwrise (district, in which the particular mineral available) is brekdown have been given. The total value has been computed, taking the average pit mouth value per ton in to consideration. The figures have been collected from the office of the Director of Mines, Orissa.

The number of meines existing, reporting output and value of minerals have been given separately to have a comparative view over all the years from 1954—1963 in respect of the individual minerals.

The total amount of production of minerals which was 110·5 lakh metric ton in 1962 became 108·9 lakh metric tonnes in 1963, showing a decline of 1·5 per cent The dcere ase in the output of iron is primarily responsible for the fall in the total producton The fall in the production of iron ore can be attributable to the fall in price of the same

XIX. LABOUR AND EMPLOYMENT

This section presents data in respect of employment and accidents in factories, industrial absenteeism, workmen's compensation, wages and earnings. Statistics relating to the employment and accidents in factories are collected by the office of the Chief Inspector of Factories, Orissa, under the provisions of the Indian Factories Act, 1948 which covers all factories employing 10 workers or more with the aid of power and 20 workers or more without the aid of power. Special powers also are given in the Act to collect information from small factories. Statistics regarding compensations paid to workers are collected by the office of Bureau of Statistics and Economics, Orissa, on voluntary basis from all Commissioners appointed under the Workmen's Compensation Act, 1923, whereas Statistics of wages and earnings of factory workers are collected by the office of the Labour Commissioner, Orissa under the Payment of Wages Act, 1936.

Factory Statistics—The factories which submitted returns during the period stated with the number of workers employed in them are distributed according to the number of working days of the year in the Table No. 19·01 for the State of Orissa from 1958 to 1963 whereas data in Table No. 19·02 represent the number of factories registered, number of factories working and submitted returns and the licence fees realised from them during the period stated.

Data relating to total number of factory accidents, man-days worked, man-days lost, severity rates, and frequency rates of accidents in the State of Orissa from 1958 to 1963 are given in the Table No. 19·03 while data in the table No. 19·04 represent the number of accidents in the factories of selected industries, from 1958 to 1963. Accidents cover all accidents occurring in the factories which result in either death or injury to a worker necessiating his absence from work for 48 hours or more.

$$\frac{\text{No. of man-days lost}}{\text{No. of man-days worked}} \times 1{,}000 \text{ man-days worked—Severity rates.}$$

$$\frac{\text{No. of accidents}}{\text{No. of man-days worked}} \times 100{,}000 \text{ man-days worked—Frequency rates.}$$

Table No. 19·05—Data relating to industrial absenteeism due to sickness or accident social or religions causes and other causes are presented in this table along with the registered factories existing and reported. The figures these are collected by the Bureau of Statistics and Economics from all registered factories on a voluntary basis. State figures from 1955 to 1663 and Industry-wise data for the last year are given in the table.

Total number of man-shifts scheduled to work—Gives sum total of the number of workers scheduled to work in all shifts of the factories during the period. Total number of man-shift absent represent the sum total of the number of workers remained absent for all shifts of the factories during the period. Absence represents absence on leave due to sickness, accidents, social, religious and other causes as defined under rules. Absence of workers due to strike or lock-out or employes ordered lay off are not included.

Workmen's Compensation—Statistics relating to the number of cases filed before and disposed of by the Commissioners, Workmen's Compensation, Orissa, and the amount of compensation paid to the workers involed in industrial accidents under the Workmen's Compensation Act, are shown in Table Nos. 19·06 to 19·09 For the purposes of compensation, accidents are classified as accidents causing death, permanent disability and temporary disability. It may be mentioned that number of accidents reported under the Factories Act or Mines Act need not be necessarily identical with the number of accidents actually compensated under the Act. State figures are shown for the years 1960 to 1963 and district-wise figures for the year 1963 are shown.

Wages and Earning—The Statistics in respect of wages and earnings of factory workers, deduction from their wages for reasons stated and average annual earnings per worker (Industry-wise) as collected under the Payment of Wages Act are presented in the Table Nos. 19·10 to 19·12. State figures for the year from 1962 to 1963 are shown in tables. 19·10 and 19·11 and from 1960 to 1963 in table 19·12 ' Wages ' as defined in the Act cover all remunerations capable of being expressed in terms of money and payable under the terms of contract. The provisions of Payment of Wages Act apply to all factory employees including Clerical, Supervisory staff whose monthly earnings do not exceed Rs. 200 per month.

The coverage of such statistics, has been enlarged with the coming into force of the Factories Act, 1948 because the definition of the factory has been extended to all factories working with aid of power and employing ten or more workers as well as those working without the aid of power and employing 20 or more workers. The industrial establishments viz., Bus services plying under the State carriage and public carrier permits, bamboo forest organisation excluding Government factories (Railway workshop and proof experimental establishments under the Ministry of Defence) have also been included under the provisions of the Payment of Wages Act.

Table No.—19·13

Object—The object of collecting statistics of Industrial Disputes is to bring out information on work stoppages due to industrial unrest leading to loss in economic activity which naturally affects production

Industrial Disputes—Work stoppages may be classified according to their origin. If it originates in a demand desired to be enforced and connected with employment or non-employment or terms of employment or conditions of labour, it is termed as an " industrial dispute ". The workers may stop work as a protest against certain demands of their employer.

Source of Collection—Statistics on industrial disputes are being collected at the instance of State Government in the Labour Department on voluntary basis from the units having the following characteristics :—

(*i*) involving 10 workers or more and

(*ii*) leading to a temporary stoppage of work with a view to enforcing an individual or collective demand and in absence of a demand sponsored by the workers.

The forms A, B and C designed by the Government of India are canvassed for the collection of statistics. The agencies of all the Subdivisional Officers are utilised to trace the occurrences of the disputes in each subdivision to collect fuller details relating to them. Information relating to occurrences of disputes are also available at times in the local new papers facilitating the Authority to take initiative in the matter to collect statistics from the employer.

Industrial Disputes relate to both strikes and lock-outs for which informations are collected.

Strikes—Work stoppages declared and organised by workers are called strikes.

Lock-outs—Work stoppages declared by employers are styled as lock-outs and generally take place after a strike.

Number of workers involved -This relates to the actual number of workers affected either directly or indirectly in the dispute, suppose 400 workers in a factory launch a strike and in consequence the factory employing 700 workers has to be closed, in that case 400 workers are affected directly and the remaining 300 workers rendered idle due to occurrence of the work-stoppage are taken to be indirectly affected. This includes permanent, casual, and temporary workers but excludes any worker employed in special item of work not normally carried on by the employer.

Man-days lost—Man-days lost are obtained by adding up the actual vacancies caused by the work-stoppage in each shift. Here vacancies due to workers both directly and indirectly affected should be taken into account. Sundays and other holidays are excluded while calculating this.

Wages lost—The amount of wages lost by the workers has been specified due to occurrence of work-stoppage

Production lost—This is a loss to the employer on account of the work-stoppage caused by the workers.

Table No. 19·14—This table contains information on working of employment exchanges ls Orissa and the period covered is from 1954 to 1963, and the district-wise data for 1960 are also given.

FUEL AND POWER

This chapter deals with the statistics regarding production and distribution of Coal, Supply of coal by rail to different class of consumers, generation and sale of electricity in the State of Orissa.

TABLE No. 20·1.--Figures on the production at different coal mines existing in the State of Orissa and despatches from the pitheads from the year 1954 to 1963, collected from the journal 'monthiy review of coal production and distribution' published by the office of the Coal Commissioner, Government of India, are made available. Figures on the amount of coal despatched by rail to different class of consumers have been received from the Supply Department, Government of Orissa.

The production at minesite are the gross production which includes the consumption of collieries 7·5 per cent of the total output. With the greater incentive attached to the exploitation of coal, the production is steadiiy increasing within the last four years. Thus the year 1961, 1962 and 1963, recorded on increase of more than 21·5 and 1 lakh tons of coal respectively than the previous year.

Table No. 20·2—Figures relate to generation, purchase and sale of electricity to different type of consumers by the Public Utility Electric Supply Undertakings in the State of Orissa owned by Government or Local Authorities or companies. Military, Railway and Factory Power Stations are excluded. State figures from 1951 to 1961 compiled from the monthly returns received from different electrical undertakings with district wise breakdown for the last year are shown in this table.

The figures of Generation represent the generation by Steam Oil and hydroplants. Purchase figures relate to purchases within the State of Orissa. Consumption of Power Station and line losses have been excluded.

XXI. TRANSPORT AND COMMUNICATION

This section deals with statistics relating to the Traffic Census of the State Transport Services, the Orissa Roads Transport Company Ltd., along with their financial position, Motor Vehicles on roads, vehicles taxed, tax receipts and fees collected, Motor Vehicles driving licenses issued and accidents occurred due to vehicles in the State of Orissa. There are two systems of Road Transport Organisations prevailing in the State of Orissa—One an entirely Government-managed Organisation called the State Transport Service and the other is called the Orissa Road Transport Company Ltd., managed through a Tripartite Joint Stock Company in which the State Government, Central Government (Railways) and the Private individuals are the participants.

Statistics regarding number of buses owned, mileages run by buses plying in various routes under operation, number of passengers carried by buses from place to place, number of routes with their distances buses plying and financial position relating to the State Transport Service and the Orissa Road Transport Company Ltd., have been presented in the tables from 21·01 to 21·06. All these data are Collected and tabulated in the office of the Controller, State Transport Service and Director-in-charge, Orissa Road Transport Company Ltd.

Statistics regarding number of motor vehicles on roads, motor vehicles driving licenses issued, number of motor vehicles taxed, tax receipts and fees collected have been presented in the next four, tables. These figures are collected and tabulated in the office of the Inspector-General of Police Orissa. Number of accidents caused by various types of vehicles and number of persons killed and injured due to such accidents are given in the table No. 21·11. Number of accidents covers all reported accidents occurred in various places accessible to vehicles. These are compiled in the office of the Superintendents of Police from the returns received from police-stations under them.

XXII. POSTS AND TELEGRAPHS

This section presents statistics relating to the Small Savings, number of Posts and Telegraph Offices in existence, Postal Traffic and Postal Revenue in the State of Orissa. The State figures from 1955 to 1963 are given in the tables of the Section. Such data, except the numb r of Posts and Telegraph Offices are compiled in the office of the Deputy Accountant-General, Posts and Telegraphs, Government of India, Calcutt,a who collects the same from all Post Offices working in the State.

Telegraph charges realised in cash—These include revenue derived from (1) messages sent on Deposit Account System, (2) messages booked through National Cash Register and Franking Machine, (3) bearing Press Messages, (4) cost of unnecessary service messages, (5) recovery in cash on account of under charge fees Registered Abreviation Addresses.

Telephone Revenue—Revenue derived from rent of Telephones and Telephone call fees.

Postage realised in cash—Refers to those cases where postages are paid for in cash insteai, of postage stamps. This includes (1) Postage paid in cash in Presidency Post Offices, (2) Credp afforded in the Schedule of customs duty on account of postal fees, delivery fees, redirection fees warehousing charges, demurrage, etc., realised on delivery of inward foreign parcels, (3) charges for resetting franking machines, (4) cash realised from unpaid or insufficiently paid postal articles.

Other receipts—Includes all other items of Posts and Telegraph revenue except those specified above. Most important of such items are (1) Receipt on account of M. O's., B. P. O's and I. P. O's., (2) Fees ftom Broadcasting Receiver licenses, (3) Rent of wires and instruments leased to Railways and Canals, (4) Revenue derived from the sale of ordinary and service stamps used for both postal and telegraph purposes.

XXIII. AMUSEMENT

This section deals with the statistics relating to the cinema houses and entertainment taxes collected in the State of Orissa. The data are complied in the office of the Bureau of Statistics and Economics, Orissa from the returns submitted by the individual cinema houses.

Table No. 23·1—Number of cinema houses in existence, number of houses reporting, total number of tickets sold in all classes and the amount of sale-proceeds of tickets realised from the cinema going population are shown in this table. State figures from 1954 to 1963 with district-wise break down for the last three years are presented.

Table No. 23·2—The amount of entertainment taxes realised with the number of concerns from whom such taxes collected are given in this table. Such data are collected from the Board of Revenue, Orissa and the District Magistrates. State figures from 1954 to 1963 with district-wise figures for the last three years are given in this table.

Table No. 23·3—Data represents the sitting capacity, status of the individual cinema houses and the value of tickets and the amount of entertainment taxes charged in different classes.

XXIV. EXPORT AND IMPORT

Statistics relating to the trade of Orissa are presented in the tables of this section

Table No. 24·1—Figures, given in this table, say about the Inland Trade Statistics of Orissa relating to the quantities and value of cargoes carried by country boats from the years 1953-54 to 1962-63. Total amount of tollage collected is also shown in this table. The figures have been collected from the office of the Executive Engineer, Mahanadi (South and North) Division.

Table No. 24·2—The movement of important commodities exclusively by railways from the years 1953-54 to 1962-63 has been shown in this table. The figures have been colleted from the journal 'Accounts relating to Inland Trade Statistics' published by the Director General of Commercial Intelligence and Statistics. The figures for 1960-61 onwards are given in quintals and metric tonns instead of maunds and killogrammes respectively.

The weight recorded in the net weight which is estimated by deducting a certain fixed percentages which have been taken to represent the weight of the packing,, etc. from the gross weiht entered in the invoices.

The statistics are recorded on 'Import 'Basis'. According to the arrangement in force, each of the railways register the traffic as is received at the stations on its line within one State from other States. Such traffic is recorded as import of the State where it is received and is treated as export of the State from where it is despatched.

XXIV. EXPORT AND IMPORT

24·1. Quantity, Value and Tollage of different cargoes carried by inland water transport in Orissa

TABLE No. 148

Year	No. of boats with full capacity	Quantity of cargoes carried		No. of boats (not fully loaded)	*Quantity of cargoes carried in vessels	
		Tons	*Metric tonnes*		Tons	*Metric tonnes*

XXV. COMMUNITY DEVELOPMENT

This section deals with the statistics relating to the Community Development programme in the State of Orissa. This programme is in operation since October, 1952 and by the end of March 1960, 58 per cent of the area of the State has been brought under its coverage. The programme aims at all round Development of rural Community by methods which will stimulate, encourage and help villagers to undertake Developmental work in their own areas.

Table No. 25·1—Data relating to the total provision for the Third Five-Year Plan period and the actual expenditure incurred during the last three years of the plan period 1961-62, 196[illegible]-63 and 1963-64 for various developmental activities as stated are presented in this table. The expenditure figures represent the expenditures incurred in connection with all plan schemes (State Sector) which are being executed in the State of Orissa and the data are supplied by the Planning and Co-ordination Departments, Government of Orissa.

Table No. 25·2—Statistics relating to the progress of physical achievements gained in various fields of activities upto the end of March 1963 since the date the Community Development Programme is launched in Community Development and National Extension Service Blocks. Data in respect of each district are shown in this table. All data presented in the table No. 25·2 is complied by the A. I. Unit of Bureau of Statistics and Economics, Orissa from the Progressive reports furnished by the Block Development Officers in the forms prescribed by the Government of India.

STATE INCOME

The table presented in this section gives the revised Series of State Income estimates for the period 1951-52 to 1962-63, which has been prepared on the latest available Statistics and up-to-date methodology. All factorial incomes originating within the State boundary have been included in the estimates of State Income.

The State Income at current prices has gone up from Rs. 275·57 crores in 1951-52 to Rs. 449·92 crores in 1962-63. The increase worksout at 63·28 per cent which means a average annual growth rate of 5·7 per cent. The increase in population during this period has been 21·8 per cent in 1·98 per cent for annum. The *per capita* Income at current price during the period has increased by 4·07 per cent, *i.e.*, at the rate of 3·1 per cent for annum.

Table 1—This table gives a comparison of the movement of net State output both at current and constant (1958-59) prices with their indices.

Table 2 & 3 —These tables give sectional estimates of State Income by industrial origin for different years both at current and constant prices. The net domestic product at factor cost by industrial origin is estimated for the sectors grouped under.

(*i*) Agriculture

(*ii*) Mining & Manufacturing

(*iii*) Commerce & Transport

(*iv*) Other Services

Table 4—This table shows the State Income of Orissa by Industrial origin at (1958-59) prices.

This estimates of State Income at constant prices serve as a satisfactory index of real levels of achievements of a particular economy.

XXVI. STATE FINANCE

26·1. Comparison of movement of net State Income (at Factor Cost) at Current and Constant prices
